**Incident Description:**

UPRR reported a major train derailment outside of Mosier OR. The derailment consists of several cars loaded with petroleum products. There is a reported fire with thick black smoke. Several of the petroleum cars into Rock River Creek. Several EMS agencies are en-route but I do not have any information for an on scene contact. The locomotive involved in this is #UP5544 Received an NRC report that narrowed the location to rail road MM 68.5 near 1504 Rock Creek Road. It further indicated that there was an unknown element released from the train. 06/04/16 0600 hrs - UPRR reports an oil sheen on the Columbia River inside and outside the booms. Release amount is unknown, but the fire has been extinguished. rsk 1529 - UPRR Katie: Have confirmation that I-84 is closed for 18 miles. An evacuation has been set up for 1/2 mile around the incident. This is an estimation, Estimated 11 cars derailed, 6 into the rock creek, 4 on fire and actively releasing. The EPA has stated that no one will attempt to extinguish the fire it will have to burn out on its own and there is no estimated time for re-opening the major interstate. - MLR 18:56: Curtis 971-563-6664 with American Red Cross called in to advise they have opened a shelter at Dry Hollow Elementary School in The Dalles. - MLR 06042016 1538hrs//Daniel Kearns (City Attorney Pho/503.997.6032)called in to report incident, from City of Mosier. City Manager is on scene; Kathy Fitzpatrick Pho/541.400.0124. \*Mr. Kearns did not know it had already been reported to OERS. //crb 06062016 1200hrs: Wasco Train Derailment – with fire As of 06/06/2016 Total train cars 96 unit cars Mosier Population 489 Total Population Friday 06/03 there were 16 Union Pacific unit cars derailed and 4 of those caught fire. There were 29,000 gallons of Bakken Crude Oil per car. Evacuations were issued for a 1/4 mile radius totaling over 100 evacuees. A Red Cross shelter was established on Friday in Mosier, but was closed on Saturday. The Wastewater Treatment Plant was damaged and is offline. An ETA for restoral of services is not known at this time. There are Vactor Trucks on site in 24/7 operation to collect and transport the waste to Hood River until Plant is back online. There is a precautionary 'boil water' notification for drinking water. 4 Tribes are aware and monitoring the situation and the lead is from the Yakima Tribe in Washington (per Sheriff McGill of Wasco County). There are no known impacts to fish and wild life but it is being monitored. Continual air quality is being monitored. EPA and DEQ are developing a plan for contaminated soil. There was no visible sheen on the Columbia River on either Sunday or Monday morning. Union Pacific has set up a client services trailer.//GDuvall
